From force modernization to expanding airport infrastructure, the Bahrain International Airshow (BIAS) attracts motivated buyers from across the Middle East and North Africa (MENA) region searching for high-quality equipment, innovative technology and design, and extraordinary service presented in a highly personalized trade show environment.

The 2018 edition of the Bahrain Airshow will present an impressively diverse and dynamic aviation and aerospace marketplace, reflecting the Kingdom of Bahrain's need to upgrade and modernize its air defenses, accommodate the growing demand for air travel (the airport is growing four-fold) and compete more aggressively as a regional gateway for business. Bahrain Airshow witnessed year-over-year growth (2014/2016) in deals (221%) and international exhibitors (61%). Do not miss this opportunity. Register today!
