On a grander scale, your participation helps offset the American trade deficit and supports over 800,000 American jobs. To assist you in this endeavor, we are proud to offer the 2013 Branded Program.

Food Export–Midwest and Food Export–Northeast are non-profit organizations comprised of state agricultural promotion agencies that use federal, state, and industry resources to promote the export of Midwestern and Northeastern food and agricultural products. We are dedicated to supporting U.S. suppliers whose business strategy includes promoting their branded food and agricultural products in overseas markets.

Through Exporter Education, Market Entry, and Market Promotion strategies, Food Export–Midwest and Food Export–Northeast can help your company understand and discover new exporting opportunities by providing 50% reimbursement for costs generated from eligible marketing and promotional activities. These services are made possible through funding from the USDA, Foreign Agricultural Service (FAS).

We provide this manual in an effort to assist you in making your participation in the Branded Program as easy as possible. It is important that you review the policies, procedures, and guidelines of the program to be able to take full advantage of all the benefits. See pages 46 and 47 for a complete list of state departments of agriculture and contacts. Additionally, should you need further assistance, contact the Food Export Outreach and Customer Service team at 312.334.9200 in the Midwest and 215.829.9111 in the Northeast.

For promotional activities, you must include the full contact information of your importer/distributor in that country. You can receive reimbursement for Branded funding for up to five years for any one country; however, the five years in the country do not have to be consecutive.

*Note: Since June 1, 2004, federal regulations prohibit funding Branded Program activities in the following countries: Iran, Sudan, North Korea, and Cuba.*
• **Tradeshows Held in the U.S. Plan**

• **Product Label or Promotional Literature Sample**
Originals or photos of your product labels/packaging or promotional literature for all products listed on your application summary must be submitted with your application. This is required before we can begin the review of your application. Returning participants will be asked to provide these items every 3 to 4 years.

The certification page is the last page of the application summary. This page must be digitally signed and submitted online.

• **Application Fee**
A non-refundable application fee of $250 must be paid online via credit card or a check mailed to the appropriate Midwest or Northeast office.

• **Certification of Exclusivity and/or Private Label Agreement**
If you are promoting a brand that your company does not own, you must submit one of these two forms (whichever document applies to your situation). The document must be signed by you and the brand owner and include the markets where you have exclusive rights to promote the brand. If you are unclear about what agreement applies to your company please refer to pages 52 to 54 for a glossary of terms. These documents can be obtained through the website during the application process.

Please note that certification of exclusivity is used for Branded Program purposes only and provides exclusive rights for the company to obtain Branded Program funding to promote the products in the countries listed in the exclusivity agreement.
MAKING CHANGES TO YOUR PROGRAM AGREEMENT

Companies often have to make changes to their funding allocation after signing the Program Agreement and paying the administrative fee. The examples below include the most commonly requested Amendments for Existing Program Agreements:

Adding a New Country
- An amendment request and a country marketing plan must be submitted for a new country. Additional funds may be requested, or existing funds can be shifted from another country in your approved application.

- If a company receives additional funding, they will be required to pay a 6% administrative fee on the additional allocation being requested.
- Total allocations (original plus all subsequent allocations) may not exceed USD $300,000 per company for the Program Year.

Moving Funds Between Existing Approved Countries
An amendment does not need to be submitted for this.

Requesting Additional Funds for a Country
Spending beyond your original allocation in a market may be reimbursed only after an amendment has been approved.

Adding a New Overseas Agent
Whenever a new overseas agent is appointed, a participant company must submit an Amendment Request that includes the company name, address, and other contact information of that importer.

Adding One or More New Products to a Country Marketing Plan
Expenses to promote a product not in your country plan will not be eligible unless you submit an amendment first.

Submitting an Amendment Online

- Click on “Amendments” at the top.
- Choose the correct type of amendment.
- Select Program Year.

**International Trade Seminars Related Expenses**
Eligible seminars are those designed to inform industry representatives about U.S. brand names and products. Site rentals, interpreters, translation, and duplication of seminar materials are eligible.

**Part-time Contractors**
- Costs for demonstrators, interpreters, and translators that assist with eligible promotional activities such as in-store demonstrations, tradeshows, and seminars are eligible.
- The maximum reimbursement amount for part-time contractors is determined by the U.S. government. The maximum eligible expense for 2012 is USD $62.06 an hour or USD $496.48 a day. 2013 contractor fees will be set by the U.S. government and will be announced at a later date.
- Employee wages and those of your overseas agent are not eligible.

**Freight Costs**
Costs for shipping samples to overseas agents, consumer and trade demonstrations, and for shipping tradeshows materials and samples to eligible tradeshows and seminars are eligible.

*Note: The actual cost of the samples is not eligible.*

**Trade Missions**
If a trade mission is pre-approved by the USDA, Foreign Agricultural Service and the State Regional Trade Groups (SRTGs), participants may qualify for reimbursements on travel expenses (i.e., hotel, meals, and airfare). Please check with us in advance.

---

Food Export-Midwest and Food Export-Northeast reserve the right to contact vendors, Foreign Third Parties, and your financial institutions to verify transactions and payments. If we are unable to verify payments or participants are unwilling to assist us in the verification we are under no obligation to provide reimbursement.
Many marketing-related expenses are considered “costs of doing business” or, for other reasons, fall outside the regulations of the Branded Program and therefore are not eligible for reimbursement. This list should not be considered complete. If you have questions concerning your company’s specific marketing plans and eligible reimbursements, contact Food Export–Midwest or Food Export–Northeast before incurring the expense.

General Ineligible Expenses

• Expenditures for activities and materials that do not carry U.S. origin statements
• Any activity or product not specifically included or approved as part of the participant company’s Program Agreement or Approved Amendment
• Travel expenses, catering, and attendance fees related to international trade seminars are not eligible
• Travel and lodging expenses related to tradeshows held in the U.S. are never eligible for reimbursement
• In-store demonstrations and merchandising in the U.S. are not eligible
• Expenses incurred for an activity prior to approval of the activity or amendment
• Any activities and functions held within the United States (not including certain costs for approved tradeshows held in the U.S.), its possessions, and in ineligible countries as listed on page 16.
• Vehicle rental and fuel to transport tradeshow materials and samples is not reimbursable

Business Related Ineligible Expenses

• Salaries, living expenses, office costs, allowances, office parking fees
• Administrative expenses including communications costs (phone, fax, internet) including those related to travel (hotel and cellphone charges)
• Refundable deposits and advances
• Capital expenditures including purchases of anything with usable shelf-life of one year or more
• Rental, lease, or purchase of warehouse space
• Purchase, construction, or lease of space for permanent displays (i.e., displays lasting beyond a one year activity plan)
• Meals, reception refreshments, entertainment, or gifts
• Business cards, seasonal greeting cards, subscriptions to publications
• Membership and Program fees
Business Related Ineligible Expenses (continued)

- General company literature that does not include product promotion information
- Routine translation and interpretation services not related to eligible promotional materials
- All international travel costs not associated with exhibition at an international tradeshow
- Management consultant fees
- Product-related ineligible expenses
- Product research and development
- Package and label design/production and origin identification stickers not specifically required by importing country (see page 23 for details)
- Shelf trays
- Product samples

Marketing-Related Ineligible Expenses

- Slotting and shelf-space fees, licensing fees, product registration, and similar sales expenses
- Coupons, redemptions, price discounts, and any other activity to reduce the selling prices of an agricultural product. Printing, distribution, and promotion of coupons are no longer eligible.
- Advertisements or any other marketing and promotional items that feature a coupon that reduces the cost of the product
- Fees for participating in Food Export–Midwest and Food Export–Northeast programs and services (Including Food Show PLUS™, Buyers Missions, Market Builder, etc.)
- Sexual enhancement products and products of a sexual nature
- Promotions or products that are deemed offensive.

Coupon Promotions

While expenses related to coupon promotions are still ineligible, the regulations have been loosened slightly. In the past if a promotion included a coupon for a product not promoted by or a part of a participants application (For instance if a pretzel company—who was a Branded Program participant—did a promotion with a Beer company—who was not a Branded Program participant—who includes a coupon for their beer) the entire expense would be denied. This is no longer the case.

A company’s promotions and advertisements can not disparage any other company or product either directly or indirectly.
To protect against fraud and other improper activities, we require specific documentation to be submitted for all reimbursement claims. Additional documentation is required for travel reimbursement, see page 36.

**Required Materials**

All reimbursement requests require the following four documents:

1. **Invoice**
   - Document from the vendor stating charges and details of the services rendered.

2. **Proof of Payment**
   - Reimbursement is based on your payment, so we must have the proper documentation.
   - Accepted proofs of payment include:
     - **Cash Receipt** – Must be marked “paid”, and show a zero balance (only acceptable for payments under USD $2,000).
     - **Check** – We must see the cancelled version of the check (a copy of the front and back of check), or a copy of the check accompanied by a bank statement showing it was posted.
     - **Credit Card** – Credit card statement must show the charge. Signature slips are not acceptable. We do not need to see payment to the credit card company.
     - **Wire Transfer** – We must see the wire transfer confirmation or the bank statement showing the posted transaction. The request alone is not sufficient.
     - **Credit Memo** – If you are paying an overseas agent in product you must provide the invoice for the product and corresponding credit memo. If there is a remaining balance after applying the credit to the invoice, we must see that the vendor/overseas agent paid the balance as well as a freight or airway bill indicating the product was shipped.
   - Overseas Agent expenses are eligible if they are submitted through the U.S. participant. We will accept either participant’s full reimbursement to the agent or the agent’s full proof of payment for the expense and participant’s 50% reimbursement to the agent.

All foreign language documentation must be translated into English or else it will not be processed.
3. Proof of Activity

This form of documentation is dependent upon the activity. This document should be an example of the promotional activity that was conducted.

- **Marketing and Point-of-Sale Materials**
  You must submit samples of the materials, either originals or copies, and the U.S. origin statement must be clearly visible. Give-away items such as key chains, pens, and shirts must have the origin statement. The give-away item does not have to be manufactured in the U.S. However, it must have the statement, “Made in the USA”, and the brand name listed on the item.

- **International Tradeshows**
  Expenses related to exhibiting at an international tradeshow require a photo of your booth. If the expense is for photos, banners, signage, or other graphics used to decorate your booth, we will need photos of each item that clearly show the U.S. origin statement on each.

  All tradeshow related expenses will now require booth photos as proof of activity (as opposed to tradeshow guide listing). Photos will provide detail of products on display in addition to U.S. origin statement.

- **Demonstrations/Merchandising**
  For in-store, foodservice promotions, and temporary displays, we require a list of stores/locations and dates as well as representative photos of the events or displays. We recognize that some stores do not allow photography; in these cases we will accept demonstration reports.

- **International Trade Seminars**
  We require photos from the events and any literature printed for distribution at the seminar.

- **Part-time Contractors**
  When part-time contractors are utilized at tradeshows, seminars, or in-store tasting and demonstrations, a photograph from these events must be provided as proof of activity. In addition, the invoice must include the dates and hours worked as well as the hourly or daily rate.

- **Freight Costs**
  A freight or airway bill must be submitted and must clearly show the origin and destination address of the shipment as well as indication that promotional samples are being shipped.
3. Proof of Activity (continued)

Package and Label Modifications
For all charges related to package and label modifications (translation, design, production, printing, etc.), we require copies of the original packages and/or labels and the modified versions. Additionally, we need the documents that detail the import laws that are requiring the modifications. We do not reimburse for “Made in USA” to be added to domestic product labels and packaging.

Advertising
An English translation or transcript must be submitted with all foreign language advertising. U.S. origin statement must be visible or audible on all advertising.

- **Print Ads** – Original publication or page from the publication clearly showing the date and name of the publication, as well as materials with the U.S. origin statement on the ad itself. A circulation statement needs to be submitted as well to show country subscriptions.

- **Billboards** – A clear photo of the billboard, as well as a list with the billboard’s locations and the dates of the promotion.

- **Radio/TV ads** – A video or audio recording of the commercial. An English transcript must be submitted with all foreign language ads. If the expense is for broadcasting of the ads and not just the production, we must also receive a broadcast schedule showing dates, times, and the station(s) on which the spot(s) aired.

Website development
- Screen shots of the website are required.
- The site is clearly targeting a foreign audience, for example web pages in a foreign language.
- A separate portal for foreign buyers.

Proof of activity for advertisements, package and label modifications and any other printed material—we will only accept PDFs of the actual material, not a PDF of the design.
**Public Relations**

- Samples or copies of ALL materials created (i.e., press kits, press releases, etc.)

  *Note: If a press release is created for an eligible tradeshow held in the U.S., the press release must promote your exhibit at the show. No other domestic press releases are eligible.*

- Copy of at least a partial mailing list and what was mailed for your mass mailings.

**Tradeshow Booth** – A photo of your booth clearly showing a statement promoting the U.S. origin of the products.

**Booth Signage and Literature**

- Photo of any posters or signs in your booth. The U.S. origin statement must be visible.

- Sample or copy of all literature distributed at your booth.

Whenever exhibiting at an international tradeshow or one held in the U.S., program participants are required to exhibit in the show’s USA pavilion when available.

**4. Proof of USA**

The activity must promote the product as “Made in the USA”; therefore, a USA origin statement must be visible. Eligible USA origin statements are listed on page 20.

*Note: When sending sensitive financial documents, it is recommended that you redact account numbers and line items irrelevant to the claim. Please do not send originals—only photocopies.*

You are required to maintain your Branded Program files for five years following the end of the Program Year. These files are subject to audit by Food Export–Midwest, Food Export–Northeast and the USDA, Foreign Agricultural Service.

ELIGIBLE INTERNATIONAL TRAVEL EXPENSES

The Branded Program allows for the reimbursement of some travel expenses related to international tradeshows and approved trade missions. Branded Program participants are subject to U.S. federal travel regulations for international travel.

- **Exhibiting at an International Tradeshow/USA Pavilion**
  Branded Program participants are required to exhibit inside the USDA-sponsored USA Pavilion (when there is one) to qualify for travel reimbursement. See pages 44 and 45 for a list of tradeshows with USA Pavilions. If a USA Pavilion does not exist, participants may arrange for booth space anywhere.

  Participants may request exemption from the “USA Pavilion” rule if exhibiting in a product-specific pavilion or in their distributor’s booth. This request for exemption must be submitted in writing and in advance to Food Export–Midwest or Food Export–Northeast. Requests for exemption will be reviewed on a case-by-case basis by the USDA, Foreign Agricultural Service.

- **Advance Approval of Country Marketing Plan**
  Company must have an approved Country Marketing Plan for the country where the international tradeshow physically takes place prior to exhibiting at the show.

---

**You must send a written notification of your travel plans to the USDA, Foreign Agricultural Service overseas office in advance of your trip. To send this notification, log on to www.foodexport.org with your user ID and password, and click on the link “FAS Notification”. Upon completion of the form, an email will be sent to the USDA, Foreign Agricultural Service overseas office, as well as Food Export–Midwest or Food Export–Northeast.**

- **Must Fly on a U.S. Flag Carrier**
  A U.S. carrier must be used to and from the international destination in accordance with the Fly America Act. When the final destination cannot be reached by a U.S. flag carrier, you must submit a statement to that fact by a travel agent, and show that all other portions of your flight were on a U.S. carrier. Travelers may only be reimbursed up to the cost of a full-fare, economy (coach) class ticket. If business or first class is used, companies will need to submit a travel agent’s written quotation for the economy ticket cost for the same dates and itinerary.

---

**Flights on European Union (EU) carriers are now allowed for reimbursement under the Branded Program.**

**WARNING: Please make sure that the carrier’s country is part of the EU, as not all European countries are members of the EU.**
The Program Reimburses for Travel of Two People
Travel reimbursements will be made for no more than two company representatives per event. Travel costs for distributors, interpreters, and demonstrators are not eligible.

Per Diem Expenses for Meals and Lodging
Per diem rates are published for both “lodging” costs and “meals and incidentals” (M&IE) and are based on the local city and country. Federal per diem rates are updated monthly and are available at http://aoprals.state.gov/web920/per_diem.asp.

Lodging: Travelers are reimbursed 50% for eligible lodging costs. Reimbursements are based on the actual lodging costs up to the maximum per diem allowance. Dates must correspond with tradeshow exhibit dates.

Days of travel: The eligible travel days include two days prior to the tradeshow, and one day after.

Meals and Incidentals Expenses (M&IE): Meals and incidentals expenses are reimbursed based on the Federal per diem rate only, no receipts need to be submitted. Based on check in/out dates, meals will be calculated on the hotel bill provided. On the first and last eligible days (travel days), the reimbursement is based on 75% of the per diem rate. For the remaining days, the reimbursement is based on the full per diem rate.

On-the-side vacations and/or business meetings are not eligible for reimbursement when traveling and exhibiting at shows. When booking travel, make sure to obtain an itinerary that states the cost of the flight without side trips. Submit both the invoice and itineraries for reimbursement.
REQUIRED DOCUMENTATION FOR TRAVEL REIMBURSEMENTS

Travel claims require ALL of the documentation below. It is also recommended that you retain boarding pass documents in case they are requested.

- **Foreign Agricultural Service (FAS) Post Notification**
  You must notify the USDA, Foreign Agricultural Service office in the country you will be traveling to at least 30 days in advance of your travel. You may do this through our website. Log on to the website, and click on the link “FAS Notification” at the top. A sample can be found on page 40.

- **Trip Report**
  Following your exhibition at the tradeshow, you must fill out a trip report detailing the experience. This may be done through our website as you are completing your travel reimbursement worksheet, or you can request the form from Food Export–Midwest or Food Export–Northeast. A sample can be found on page 39.

- **Airline Itinerary/Invoice**
  We must have a detailed itinerary/invoice from either a travel agent or airline. We are specifically looking for flight information. It is advised that all participants retain copies of their boarding passes in case further documentation is needed.

  *Note: Online ordering confirmations are not the same as passenger receipts. It must list the ticket number.*

- **Passenger Receipt**
  This document comes from the airline and indicates your ticket number(s) as well as price. While paper tickets are becoming rarer, it is still possible to obtain a receipt upon request when checking in at the airport (including an automated check-in kiosk) or it can be printed when ordering online. Boarding passes are not eligible passenger receipts.

- **Itemized Hotel Bill**
  We must receive a document from the hotel that shows your check in/out dates as well as the nightly room rate. If you were charged by a travel agency, travel website, or similar service provider, we advise that you still obtain documentation from the hotel itself that verifies your check in/out dates, name of guest, and, if possible, nightly room rate.

- **Proof of Payment**
  You must provide a copy of your proof of payment for hotel and airfare. Any of the previously mentioned approved forms of payment are acceptable (see page 28 for more information).

- **Proof of Activity**
  Photo of booth is acceptable (see pages 29-30 for details).

FAS Notifications must be sent to the FAS Post in the country you are traveling to 30 to 45 days in advance of travel to be eligible for reimbursement of travel expenses. This procedure can be done through our website.

If any of the above documentation is in a foreign language, please translate the details of the document into English (i.e., what services are being charged).
This table is designed to help you calculate your travel reimbursement.

- Use the website listed below to find the per diem rates for the city and country of the tradeshow in the month you exhibited.
- Eligible dates of travel include two days prior to the show, and one day after (no exceptions).
- To calculate the eligible hotel expenses, enter your actual nightly rate in U.S. dollars or the federal per diem rate (whichever is lower).
- For M&IE, enter 75% of the per diem rate on the first and last eligible days, and the full rate for the middle days.
- Enter your economy class airfare amount.
- Add your hotel, M&IE, and airfare totals together to get the total eligible expense.
- Your reimbursement will be 50% of this amount.

This section contains a collection of the most frequently asked questions by program participants, and the answers to those questions. If you have a question that is not answered in this section, do not hesitate to contact Food Export–Midwest or Food Export–Northeast.

**Q: Should I submit all of my original reimbursement documentation to Food Export–Midwest or Food Export–Northeast?**

A: No. Always keep original documents for your files and submit copies of all documentation to Food Export–Midwest or Food Export–Northeast. We may require original documentation at our discretion. Also, you are required to maintain your Branded Program files for five years following the end of the Program Year. These files are subject to audit by Food Export–Midwest, Food Export–Northeast, or the USDA, Foreign Agricultural Service.

**Q: How long does it take to get reimbursed?**

A: Once a request for reimbursement is received, we process it in the order received. If no other additional information/documentation is needed, we strive to reimburse all approved expenses within 30 business days. This takes into account the time it takes to request and receive your company’s funding from the USDA, Foreign Agricultural Service. If additional information is needed, you will be notified and be given 21 days to respond. The reimbursement time is solely dependent on your ability to provide us with the information/documentation that we require. Your reimbursement request can be processed more quickly if you:

- Submit all documents in a complete and orderly package, including proof of activities.
- Provide English translations for all foreign language documents, and convert all payments to U.S. dollars if payments were made in another currency.
- Submit claims within 60 days after the expense is incurred.

**Q: Do I have to wait until February to submit claims?**

A: You don’t! February is the deadline to submit claims. We like for you to submit claims within 60 days of incurring the expense. Waiting until February will only slow the reimbursement process.
Q: Why didn’t I get paid my full reimbursement?
A: Here are the most common reasons why claims are denied:

- U.S. origin statement is missing from the proof of activity documentation
- Insufficient or missing documentation
- Expenses were for ineligible activities
- Expenses were incurred for an ineligible or non-approved country
- Transactions were not documented by cancelled check, wire transfer, bank statement or credit card statement (Invoices paid with off-invoicing are not reimbursable)
- Payment was made before your program approval date

Q: Why do I have to submit an evaluation?
A: The evaluation is a requirement of your participation in the Branded Program. This form compares results with stated goals and allows you to make comments about the impact of the Branded Program. The form is required, kept strictly confidential, and used to determine the effectiveness of the Branded Program in raising the level of U.S. exports. This form is available via the Internet: just log-in using your User ID and password, then click on the tab marked, “Evaluation.” Once you have completed the entire form, click “Submit.” Reimbursements and future allocations may be withheld until complete evaluations are submitted.

Q: Can my overseas agent be reimbursed for expenses?
A: Yes, but not directly. The overseas agent must be paid by the U.S. company by check, wire transfer, bank transfer, credit card, or credit memo. After paying the agent, the U.S. company can submit the agent’s expenses for Branded Program reimbursement. Also, all agent expenses are subject to the same eligibility requirements as the U.S. company.

Q: Can I exhibit at a show in my overseas agent booth?
A: You may exhibit in your distributor’s booth, but if there is a USA pavilion at the show, you must request an exemption, in writing, in advance of the show.

Q: Will my overseas agent travel cost be reimbursed?
A: Distributor travel costs are never reimbursable.
Q: Our company decided to change its logo. Will the program reimburse us for a new label?
A: No, package and label modifications are only reimbursable if the changes are necessary to meet importing country requirements. Modification of an existing label should be used in that program year.

Q: If we hire a taxi or rental car to take product samples or booth decorations from our hotel to the tradeshow convention center, is this eligible?
A: No, travel costs are not eligible for tradeshows held in the U.S. In this case, your packages are traveling with you, so it is seen as transport of you. For overseas shows, the meals and incidentals allowance covers your daily show transportation. A freight cost for shipping samples or booth materials via a common carrier (UPS, USPS, etc.) is eligible for tradeshows overseas and ones held in the U.S.

Q: Are product samples, costs of labels, or packaging for samples eligible for reimbursement?
A: No, none of these are eligible.

Q: Our importer conducted in-store tastings but did not provide any photos as proof of activity. We know the tastings took place—what else can we provide?
A: Most demonstration companies have their demo assistants fill out a demo report for each tasting. We will accept copies of the demo reports, along with detailed information on the location, dates, and times of the tasting as proof of activity.

Q: Will I only be reimbursed for Food Export–Midwest or Food Export–Northeast sponsored international tradeshows? For a maximum of three years?
A: No and no. All international tradeshows are eligible for reimbursement. Please make sure you exhibit in the USA pavilion if one exists at the show. Branded Program participants may receive reimbursement in a given country for a total of five years. However, as of 2009 there are some tradeshows that are exempt from graduation. Please see page 41 for a list of these shows. We do not track graduation by activity but rather by country.
Q: What if a show does not have a USA pavilion? How do I find out?
A: You should always contact the show organizers. We have also provided a tentative list of tradeshows that have a USA pavilion on pages 44 and 45. Dates and locations are subject to change throughout the year, please log onto the USDA, Foreign Agricultural Service website for a current list of tradeshows.

Q: My booth posters didn’t carry a USA origin statement but I displayed a “Made in the USA” sign. Why didn’t I get reimbursed for the design and printing of the posters?
A: One of the main points of the program is to help promote U.S. made products in foreign markets. The sign provided serves as an identifier for your booth if you have no other signage. The U.S. origin statement must be incorporated into the design of all graphic and printed materials to be eligible for reimbursement.

Q: We created our promotional literature in-house. Why can’t we get reimbursed for the cost of the design software, ink cartridges, and the paper? It is cheaper than using an outside vendor.
A: We can never reimburse for office supplies since there is no way to document that paper, ink cartridges, etc., were used only for the creation of eligible literature and graphics.

Q: Does the statement of origin have to be printed on give-aways to be eligible for reimbursement?
A: Yes, and your company name/brand name must be printed on the item.

Q: Can I be reimbursed for advertising and similar promotions in the USA?
A: No. The only reimbursable expenses in the U.S. or its possessions are those related to exhibiting at an approved tradeshows held in the U.S.
Amendment Request
A request to make changes to your Country Marketing Plan(s) as documented in your Program Agreement. An amendment must be requested when adding or dropping countries, products, and/or adding funds to a country. An amendment can be entered online or by contacting us.

Approval Date(s)
The approved date of the application and/or change request, as stated in your approval letter(s), Program Agreement, and Amendment forms. Expenses incurred before the approval date will not be reimbursed.

Branded Funds
This term refers to the amount of reimbursements received by the participating company. Example: If a company submits a claim for $100, the $50 reimbursement the company receives is considered Branded Funds.

Business Confidentiality
The information in this application may be subject to disclosure under the Freedom of Information Act (FOIA). Only information that would likely impair the government’s ability to obtain necessary information or cause substantial competitive harm may be withheld under exception 4 of the FOIA, 5 U.S.C. 552, 7CFR, Part 1, Subpart A. If this application is requested from the USDA, Foreign Agricultural Service under FOIA, the participant will be notified and may fully explain, in writing, any objections to the disclosure of any specified portion of the information requested.

Exclusivity Agreement
The U.S. applicant must own the brand name of the products to be promoted or have the brand owner sign the exclusivity agreement page of the application form. This certifies that the brand owner gives the applicant the exclusive right to seek Branded Program funds to promote the specified product(s) in the specified market(s). This must be done for all products where the applicant does not own the brand name.
Graduation
Since 1994, MAP regulations state that Food Export–Midwest and Food Export–Northeast will not provide assistance to a single company for brand promotion in a single country for more than five years. After the five-year period has been reached, the company is considered a “graduate” from the country and, thus, no longer eligible to be reimbursed for its market development expenses in that country. Companies applying for the Branded Program are required to provide complete graduation information by country if applicable at the time of the application submission. In 2009, the USDA, Foreign Agricultural Service determined that certain approved international tradeshow activities in international countries may be exempt from the Branded Program graduation. Please see page 41 for a list of those shows.

Incurred Expense
An expense is incurred on the date that the check, wire transfer, credit card, or other bank transaction occurs, not the date on which the goods or services are provided by the vendor. The only exception: tradeshow booth expenses are considered to be incurred when the show takes place, not when the payment is made.

Market Access Program (MAP)
This is a federally funded program that provides financial assistance to U.S. exporters for the promotion of U.S. agricultural products in international markets. Participating Trade Associations and non-profit organizations representing producers and other sectors of agriculture are provided funds from a joint program under the USDA, Foreign Agricultural Service which is aimed at developing international markets. Today, there are approximately 80 of these groups working with the USDA, Foreign Agricultural Service on a continuing basis in a variety of programs.

Overseas Agent
These can be distributors, agents, brokers, importers, and representatives in international markets where Branded Program funds are being used. Typically, the overseas agents are conducting Branded Program activities on behalf of the U.S. supplier.

Participant Funds
The 50% contribution the company makes each time an expense is reimbursed. Example: When a company submits a reimbursement for $100, the company has actually contributed $50 into their own overseas marketing budget. The $50 is considered participant funds.
GLOSSARY

Private Label Agreement
An applicant who packs or manufactures for private label must have the retailer/owner of the label certify that the applicant is the exclusive supplier for the product in the specific country for the duration of the Program Year. This form must be returned as part of your application.

Small Company
A company that meets the Small Business Administration’s (SBA) definition of a small company. This is according to their North American Industry Classification System (NAICS) codes as published at 13CFR, part 121 (based on the number of employees or annual sales, depending on the SIC industry category).

SRTGs (State Regional Trade Groups)
Food Export–Midwest and Food Export–Northeast are two of the four State Regional Trade Groups (SRTGs) that assist companies with export promotions. Two other regional groups, SUSTA and WUSATA, provide similar services for companies based in or sourcing product from the Southern and Western U.S. regions, respectively. See page 9 for SUSTA and WUSATA contact information.

Overseas Agent Funds
The portion of the expense that is paid by the overseas agent. For example, if a distributor in Canada pays for an advertisement in full, the U.S. company must reimburse them at least 50% of that expense. The portion they are not reimbursed by the U.S. company is the overseas agent funds.

USDA, Foreign Agricultural Service
The Foreign Agriculture Service of the United States Department of Agriculture (USDA), is the government agency that provides Market Access Program funding to Food Export–Midwest and Food Export–Northeast for their Branded Program.
